

DEMOS 4 DONATIONS

innocentlivesfoundation.org/d4d

The Demos 4 Donations (D4D) program is an opportunity for companies and organizations to partner with the Innocent Lives Foundation to further the reach of their product while supporting an important cause.

The Innocent Lives Foundation is an international 501(c)(3) organization consisting of accomplished technology experts who volunteer their time and skills to protect children on the internet by identifying anonymous child predators to help bring them to justice.

HOW IT WORKS

1

Add an ILF donation option to your list of incentives for demos*

2

Your company is listed as a participating vendor on the [ILF D4D website](#) with a description of the offered demo

3

Receive your own fundraising campaign page to track your donations, valid for 1 year** (View an [example campaign page](#))

*Donation amount per demo will be discussed prior to the participating vendor's placement on the ILF D4D website.

**We will review the relationship in one year, but either party is able to part ways at any time for any reason.
